DETAILED ACTION

1. This action is responsive to application filed 9/30/2003.
2. The disposition of the claims is as follows: claims 1-23 are pending in the application.

Claims 1, 11 and 21 are independent claims.

Examiner's Amendment

3. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee. The application has been amended as follows:

On page 2 of specification, line 16, change from:

“which each mold section is pulled away from the molded object from is referred to”

to now read as:

“which each mold section is pulled away from the molded object is referred to”.

Allowable Subject Matter

4. Claims 1-23 are allowed.
5. The following is an examiner's statement of reasons for allowance:

Applicant's independent claims 1, 11 and 21 stand novel over the related prior art. For instance, while the closest related art of Sakata et al. (Japanese Patent Number JP 09147144 A), does make use of “the die draft angle in each calculated plane is compared, the die draft angle in each endpoint A... is found. Further the result display is performed by preparing the circle

Art Unit: 2676

divided by colors according to the angle found for discriminating the change of the die draft angle at a verification location, etc.”

However, does not the “draft angles relative to the pull direction at various locations”, nor “employing a color map specifying a spectrum of colors for a plurality of trigonometric values of draft angles” as claimed in independents 1, 11 and 21.

Therefore as claimed by the combined elements of independent claim 1, 11, and 21, the cited reference and prior art of record lack separately and in combination the elements of said claims.

Claims 2-10, 12-20 and 22-23 depend from allowable independent claims 1, 11 and 21 respectively, and therefore are also allowed.

6. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Responses

7. Responses to this action should be mailed to: Commissioner of Patents and Trademarks, Washington, D.C. 20231. If applicant desires to fax a response, (703) 872-9306 may be used for formal communications.

Inquiries

8. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Gregory F. Cunningham whose telephone number is (571) 272-7784.

Art Unit: 2676

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Matthew Bella can be reached on (571) 272-7778. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

On July 15, 2005, the Central FAX Number will change to **571-273-8300**. This new Central FAX Number is the result of relocating the Central FAX server to the Office's Alexandria, Virginia campus.

Most facsimile-transmitted patent application related correspondence is required to be sent to the Central FAX Number. To give customers time to adjust to the new Central FAX Number, faxes sent to the old number (703-872-9306) will be routed to the new number until September 15, 2005. After September 15, 2005, the old number will no longer be in service and **571-273-8300** will be the only facsimile number recognized for "centralized delivery".

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see <http://pair-direct.uspto.gov>. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
